Globus Business Center l Baku

### Network Administrator 2022-Present

Globus Business Center l Baku

## Profile

I am experienced in system administration, managing Linux and Windows operating systems, as well as handling network configurations. I am proficient in Windows Server, Active Directory Domain Controller, Group Policy Objects, and LDAP. I am skilled in managing file systems, iSCSI, NAS, SAN, and vSAN. I am familiar with virtualization technologies such as ESXi, vSphere, and VM, as well as Veeam Backup.

Additionally, I possess knowledge in database management, including Oracle SQL, PL/SQL, and MySQL. I have experience with ERP systems, relational database management systems (RDBMS), and data analysis tools like Power BI. I also have proficiency in Java, Python, PHP and web development, among other technical competencies.

## Profession Skills

SQL, PostgreSQL, Oracle, Python, Java, JavaScript, Git, Jira & Confluence, Web Development, Agile, Tableau, Microsoft Power BI, Docker, R static, Linux OS, Windows Server, Active Directory, VM.

## Education

Kyiv National University of Technologies and Design (KNUTD)
